Allowable Subject Matter

Claims 1-2, 5-9, 11-20, and 23-30 are allowed.

The following is an examiner's statement of reasons for allowance: As per claim 1, Mchale was relied to disclose that the communication server can soft-terminate or hard-terminate the session after a period of inactivity for the data communication session. Mchale infers that if the communication server were receiving a content transmission from the communication network, then the communication server would not terminate the session. A thorough review of the prior art fails to disclose the specific conditions of "said client-side computer being operative in terminating the content transmission being received by the client-side computer from the at least one content source when the client-side computer is not distributing the content to any of the requesting user terminals." Independent claims 12, 20, 23, 27, 29 and 30 recite similar limitations. Claims 2, 5-9, 11, 13-19, 24-26, and 28 are allowed due to its dependency on claims 1, 12, 20, 23, and 27, respectively. Examiner notes that claims 3-4, 10, and 21-22 are cancelled by the applicants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
